CEO : Ephrem Degaga

For many years, doing business heavily relied on small number of people, but now we have built a platform where everyone has equal access to information. Everyone should find it easy to conduct business.

GebeyaX is the product of Kehsud Technology p.l.c. which was formed with a capital of ETB 10,000,000 birr.

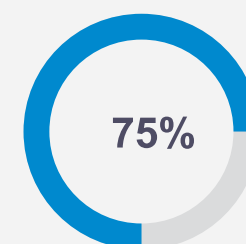

GebeyaX is an online portal that is accessible to internet users 24 hours a day, seven days a week. It is a virtual online marketplace that allows for the simple purchase and sale of construction supplies and spare parts.

Our mission is to develop a healthy and efficient virtual market place for construction materials and spare parts.

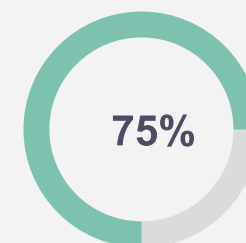

Our vision is to create the most efficient, trustworthy, and appealing digital market place for construction supplies and spare parts and be the best preferred throughout East Africa

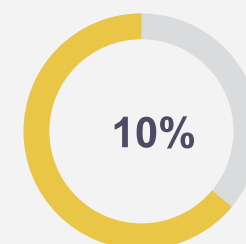

Ethiopia

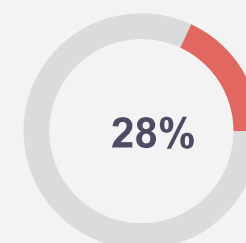

Pre-order information

Transportation range

Total construction transaction

Price regulation

A platform that allows you to search, compare, choose, order, and have your purchases delivered to you all within one app.

**Making the
purchase and delivery
of construction material
comfortable
by
using data-driven digital platform
that verifies and gives access
to construction material.**
